

A person wearing a white long-sleeved shirt and light-colored pants splattered with paint is standing against a textured wall. They are holding a pen and painting in a small notebook. A watercolor palette with various colors and brushes is placed on the wall to their left.

### 2. *Fabriano Hard Cover Watercolor Journal*

6 x 9 Made in Italy (available at Blick Art Materials or Dreama's Amazon Shop)

Please Note: The paper varies widely between these two journals. No. 1 is a creamy white and soft to the touch paper. No.2 is bright white and crisp to the touch. Both are beautiful. One is only available via my site, the other can be found online and in stores.

## Spray Bottle

This is simply a small 3 oz travel size pump spray refillable bottle. It's handy for spritzing your pan watercolors a few minutes before you begin painting!

## Transfer Paper

If you prefer a little help in drawing, this is a great tool. I show you how to use it in the tips section of the Postcards from Paris course!

## Kneaded Eraser

Great for removing pencil lines without damaging your paper, made by Faber-Castell.

## Pencil

If you prefer pencil instead of pen, a regular 2B pencil is perfect! Prismacolor makes a nice one.

## Water Container

This can be anything that holds enough water to swish your brush clean :-)

## Paper Towels

Any brand will do
